

RPET & Recycle

The fabric used in the manufacturing process of these items is made of recycled plastic (RPET). Like this, the emission of plastic residues to our planet and the consumption of energy is drastically reduced, resulting in a much more eco-friendly process.

El material de estos productos está fabricado con plástico reciclado (rpét), que ayuda a disminuir los residuos plásticos en el planeta, utiliza menos energía en el proceso de fabricación, haciendo que sea mucho más beneficioso para el medio ambiente.
